SUMMARY

Second year B.Tech at Jain University, Bangalore. Shipped a live e-commerce product that generated **1,00,000 in its first 30 days** from zero prior footprint. Top 25 of 189 at NavaNIETi national hackathon with a contributed research paper. Re-elected Vice President of the Cloud Club. Full-stack builder. Deploys what ships and owns the customer after.

EDUCATION

Jain (Deemed-to-be) University

B.Tech, Computer Science (Cloud Technology and Information Security). CGPA: 7.00

Bangalore, KA

Aug. 2024 – Aug. 2028

Nalanda International School

ISC (Class 12) and ICSE (Class 10)

Vadodara, GJ

Jun. 2010 – May 2024

EXPERIENCE

Digital Transformation Executive

Sep. 2025 – Present

Janki Anand

Gujarat

- Built and launched Janki's first digital sales channel from scratch. **1,00,000 in revenue in the first 30 days.** Cold start. No prior online presence. No ad spend.
- Made every stack decision. Ran the deployment. Still handle the customer support line.
- Turned first-time buyers into repeat orders through direct inquiries, feedback, and follow-ups.

Vice President, Term II

Apr. 2026 – Present

The Cloud Club, Jain University

Bangalore, KA

- Re-elected. Term I delivered. Term II scales industry partnerships, technical programming, and inter-college reach.

Vice President, Term I

Feb. 2025 – Sep. 2025

The Cloud Club, Jain University

Bangalore, KA

- Ran operations and set technical direction for a cloud-focused student community.
- Built a national-level CTF competition from the ground up: logistics, technical setup, participant experience.
- Led workshops and speaker sessions that grew active membership through the term.

PROJECTS

Janki Papad, Full-Stack E-Commerce | Node.js, Express.js, JavaScript, Netlify, Razorpay

Sep. 2025 – Present

- Shipped a production e-commerce web app for a Gujarati snacks brand, pan-India delivery.
- Multi-language (English, Hindi, Gujarati). Real-time cart. Razorpay. Automated order confirmations via Nodemailer on Gmail SMTP.
- Static-first hybrid deploy on Netlify using serverless-http. Chose the stack for cost and cold-start behavior. Both mattered at zero revenue.
- Live: jankipapad.com | Code: github.com/DevPatel128/janki

HACKATHONS AND COMPETITIONS

NavaNIETi National Hackathon: Top 25 of 189 Teams

Mar. 2026

NIE Mysuru | 24-Hour Healthcare Domain Challenge

- Built an Automated Nurse Calling System using gesture and facial expression recognition, validated against live vitals (BP, temperature, heart rate).
- Eliminated false alarms. One nurse managing four patients without wasted trips.
- Contributed to a research paper on patient health monitoring submitted with the build.

Indomitus CTF: PING 2.0.2.5

Mar. 2025

Manipal Institute of Technology, Manipal

- National cybersecurity competition under the Dr. TMA Pai Endowment Chair for Intelligent Technologies, Industry 4.0 and Sustainability.
